

### **GENERAL TERMS**

*The following notes form an integral and inseparable part of tariffs that follow, while clarifying their correct application:*

- a) The amounts are expressed net of VAT and subject to revision at least annually;*
- b) Service times are calculated from the time of departure from the company's premises located at Via Manrico Ducceschi - Nave Lucca until the time of return to the same;*
- c) Services charged at an hourly rate are billed for a minimum of 1 hour. Any time exceeding the first hour is rounded up to the nearest half hour (e.g. a service lasting 1 hour and 20 minutes is billed as 1 hour and 30 minutes).*
- d) Payment of the start-up cost for recovery/disposal is due in the following cases:*
  - the waste is produced in an area not subject to charges (UD and IND);*
  - the local unit from which the waste originates is different from the operational headquarters (operational headquarters not subject to tariff) of the company making the delivery;*
  - if the waste is classifiable as special.*
- e) Other services not expressly indicated in the tariff will be subject to quotation by the technicians in charge at Sistema Ambiente S.p.A. on a case-by-case basis and invoiced with reference to the unit prices indicated in the relevant quotation;*
- f) the costs applied for each type of waste not expressly indicated in Table 1 will be subject to quotation by the technicians in charge at Sistema Ambiente S.p.A. on a case-by-case basis and invoiced with reference to the unit prices indicated in the relevant quotation;*
- g) for each type of waste for which the payment of the recovery/disposal start-up cost is provided for in accordance with point d) above, a minimum invoicable amount of €35.00 shall be established.*
- h) In the case of services involving the provision of wheeled bins/containers (events), the cost of collection/disposal of the various types of waste collected will be invoiced on the basis of the volume of the containers provided and the number of times they are emptied (see Table 4).*
- i) If equipment is required in addition to that provided to each individual user, the price list in Table 5 will apply.*
- j) The monthly rental fees for equipment are calculated for 30 days and multiples of 30 consecutive days. For days exceeding full months, daily rates will be applied; daily fees are charged according to the calendar, including public holidays.*
- k) In order to provide the service, **advance** payment of the amounts indicated in the estimate received from Sistema Ambiente S.p.A. is required. The actual cost of the service provided will be quantified in the final statement, and a corresponding credit or debit note will then be issued.*
- l) For the emptying of compactors, containers and bins located within private areas, a penalty of €20.00 will be charged each time the user causes a delay of more than ten minutes to the emptying and/or collection service of our equipment.*
- m) In order to encourage the recovery of paper waste (EWC 20.01.01) and cardboard (EWC 15.01.01) Sistema Ambiente Spa will not charge for the rental and emptying of presses and containers used for the above-mentioned waste fractions, at its sole discretion, based on the quantities collected from users that make the service sustainable. Any rental conditions will be negotiated directly with non-domestic users.*
- n) All users/tourists can access the GARBY, ECOSTATION and ISOLE INTERRATE computerised equipment for the disposal of any type of waste that can be disposed of there, subject to the purchase of ECOPOINTS available in the dedicated OPEN IT LUCCA APP; in packages of € 6,00 each, including 22% VAT, payable by credit card or PayPal.*
- o) Depending on requests and the different types of waste that users need to dispose of, Sistema Ambiente is also able to offer services not expressly indicated in the above price list, which will be subject to a dedicated quote.*

***PERSONNEL COSTS***  
*- hourly costs -*
