Dear citizen,

to improve the quality of sorted waste collection and take another step towards environmental protection, we decided to make an important change to the waste collection system: the separation of glass from plastic and aluminum. With this innovation, we also change the calendar of door-to-door recycling: a specific day glass will be collected on a specific day, different from that of light multi-material (plastic and aluminum).

- ▶ the **glass must** be disposed only in the **green bin** used so far for the multimaterial. The glass **must be delivered loose** (without bags of any kind);
- ▶ the **light multi-material** (plastic and aluminum) must be disposed into the **yellow bags** provided by Sistema Ambiente.

Baby and adult diapers

Users who need to dispose of baby and / or adult diapers

must fill in the form (downloadable from the www.sistemaambientelucca.it website) and forward it to Sistema Ambiente by one of the following methods:

- ▶ **fax**
0583331563
- ▶ **email**
infoa@sistemaambientelucca.it
- ▶ **hand delivery**
via delle Tagliate III traversa IV, 136 - Borgo Giannotti

The module will help Sistema Ambiente to calculate the rate without taking into account these types of disposed material. It should also be remembered that Sistema Ambiente and Comune di Lucca provide for a reduction equal to the cost incurred for the purchase of **washable diapers** and in any case of a value not exceeding 100 euros for each child and for each year up to the third year of age.

Home collection of garden waste

To use the home collection of garden waste, it is necessary to request the appropriate 120 or 240 liter wheeled container from Sistema Ambiente office on the following days:

- ▶ **Tuesday and Thursday**, from **8.30 to 13:00** and from **14.30 to 17:00**
- ▶ **Wednesday** from **8.30 to 13:00**

Disposal of litter

Animals' litter must be disposed into the gray (unsorted) container to be displayed on the day dedicated to the unsorted waste. Extra waste can be displayed in bags or in containers, on which a sign must be placed with the words "Animal litter", placed next to the gray container.
